

Chippewa SWCD- FY2011

BWSR Grants

State Cost-share: \$10,858

Funds Returned to State

\$649.25

Grant Period (incl. extensions)

From: July 1, 2010

To: June 30, 2012

State Cost-Share Expenditures by Category

Technical Assistance Funds

Tech & Admin Funds	\$2,041.75
Total TA Funds	\$2,041.75

Implementation Funds

Field Windbreaks	
Farmstead Windbreaks	\$3,987
Grassed Waterways	
Terraces	\$4,180
Total State Cost-Share Implementation Expenditures	\$10,208.75

Project Title: FY 2011 State Cost-Share Program

Overall Project Description (abstract)

The State Cost-Share Program was established in 1977 and is administered locally by the Chippewa Soil and Water Conservation District (SWCD). The State Cost-Share Program provides financial assistance to landowners for installing conservation practices that protect and improve water quality by controlling soil erosion and reducing sedimentation. The program provides up to 75% of the total eligible cost of a practice. Often the SWCD combines the State Cost-Share dollars with the Federal Cost-Share dollars to come up with the 75%. The SWCD provided technical assistance to landowners to install conservation practices by:

- Conducting a site investigation with the landowner
- Working with the landowner to determine the best management practice (BMP) for the given situation
- Surveying and designing the project
- Producing a rough cost estimate
- Providing the landowner with a designed plan for submission of bids
- Performing a pre-construction conference with the contractor and landowner
- Supervising construction
- Certifying completion of the project

Conservation Practices Implemented

Conservation Practices Installed	Number or Linear Feet Installed	Estimated Pollutant Load Reduction (include units)	Total Cost
1 terrace	1400 feet	• 80 ton	\$4,180
1 farmstead windbreak	2.9 acres		\$837
1 farmstead windbreak	2.7 acres		\$3,150
